

10-18-18

Hello, MES Families!

Thank you for attending your child's conference this week. It was great to get to meet and greet so many of you. Even more wonderful: Our opportunity to work together to support your child's learning!

Speaking of your child's learning, as you may have discussed at your student's conference, one of the new initiatives we are focusing on at MRSD, and across the state of Oregon, are the new Oregon Health Standards. We are excited to be covering this vital information with our students, to support their learning and development, specifically so they are able to grow into adults capable of making informed, healthy decisions for their own health and well-being. The curriculum we have adopted, The Great Body Shop, includes a monthly student pamphlet that children will bring home each month, after instruction here at school. During conferences, you should have received a copy of what each month's focus will be. If not, please let us know, and we will be happy to get one to you. Also, if you'd like more information regarding this curriculum, or what your child will be, or is studying this year, please see the helpful Oregon Health Standards link on our district and school website.

As always, thank you for partnering with us to provide our children the very best learning experiences possible. We couldn't do this work without your support!

It's GREAT to be an MES Eagle!
